Welcome to our 2025 catalogue

Tracy Palmer
Managing Director

The early rain delayed us from planting our historic sweet peas in our fields, they usually go in the ground mid-October. Luckily, we had a few dry days early February and we were able to plant them. They still took a long time to poke through due to the cold wet weather that followed but I'm happy to say we still managed to get a crop, although later than usual.

After all the rain at the end of last year and the beginning on 2024 we did finally have a lovely summer, especially August where the sun shone in Kelvedon most days.

We have once again been able to introduce many new varieties to our 2025 catalogue, especially in the Tomatoes and Peppers family. This is a range that we are finding more difficult to import due to the number of tests that are needed to get them into the country.

Once again can I please remind you to order in advance to ensure the seed is available at the time you want it, we can reserve it for you, with a confirmed order for delivery when required.

Seed quality as far as we are all concerned is the most important factor. We have a well-equipped laboratory under the management of our qualified seed analyst Julia Simpson who tests all seed for germination, vigor and purity to meet the legal standards. As we are still a totally independently privately owned company, and not influenced by outside forces, **we are in a unique position to be able to select and offer the very best, possible range available worldwide** to our many customers. In addition, when it comes to Kings Seeds you always get what it says on the tin, by that, I mean that if you ask for a specific variety, it will always be genuine stock, and not a look alike, cheaper alternative. All our seeds are carefully selected and cared for by our Horticultural Director Andrew Tokely who has been in the Horticultural industry for over 40 years.

To succeed in this extremely competitive world, your main ingredient to make your business grow, starts with a good, reliable seed supplier. We feel sure that once you have used our quality seeds you will never look back, as our catalogue is the one stop shop, as far as you are concerned, backed up by our quality service and advice.

To all our regular customers, we would just like to thank you for your continued support and would like to remind ALL existing and NEW customers that if you are unable to find varieties not listed in our catalogue or website, we will, depending on the quantity, obtain these for you at no extra cost. **All part of our excellent service.**

Finally, we look forward to receiving your orders in due course, and please feel free to contact our experienced staff, to discuss any requirements or queries you may have. May I take this opportunity to wish you a very happy, healthy and profitable season.

A fine Heritage variety - put back into seed production by Kings Seeds due to increased popularity in growing Kales. Cottagers has unusual green/purple -leaves, is extremely hardy, providing a tasty supply of leaves throughout the winter. 6 Delivery

6.1 We will use Our reasonable efforts to deliver the Goods to You at the Delivery Address (provided that there is a safe and suitable route of access) on or around the Delivery Date. Time of Delivery shall not be of the essence.

6.2 You shall provide all necessary labour and equipment to enable the Goods to be safely unloaded at the Delivery Address.

6.3 Where the Delivery Address is outside of the UK, We shall arrange all the necessary documents and requirements in order to export the Goods out of the UK and import them into the country You want them

to be delivered to. If We ask You to help Us with any of the export or import arrangements, You agree to use Your best efforts to assist Us, including providing Us with any relevant documentation.

6.4 If You are unable to take delivery of the Goods on the date notified by Us, We may agree to postpone delivery subject to Your payment of any costs reasonably incurred by Us as a result of such postponement. If We are unable to agree an alternative delivery date with You, You will be required to provide Us with an alternative delivery address at which We can make delivery on the notified delivery date.

6.5 If We deliver the Goods in instalments, each instalment shall be treated as an entirely separate contract and any default or breach by Us in respect of any such instalment shall not mean that You can cancel any other instalment or cancel the whole Order.

6.6 You must inspect the Goods on delivery and if the Goods are damaged or defective on delivery or less than the correct amount of the Goods is delivered then, You must notify Us (otherwise than by a note on the delivery note) within 2 (two) Working Days of delivery, otherwise You shall not be entitled to make a claim against Us in respect of the damage or short delivery.

6.7 If You fail to take delivery of the Goods (or of an instalment of the Goods) and there is no defect in the Goods, then You shall pay Us for any losses that We suffer or costs or expenses that We incur as direct or indirect result of Your failure to take delivery of the Goods and risk will pass on the date We attempted to make delivery.

7 Defects and returns

7.1 For damaged Goods notified to Us in accordance with clause 6.6 above We shall either arrange for collection or We may ask You to return the Goods to Us at Our expense. If Your claim that the Goods are damaged is valid then We will replace the Goods. If this is not possible, We will refund You for the defective Goods.

7.2 If You notify Us that less than the correct amount of Goods have been delivered, then We shall have a reasonable amount of time within which to investigate Your claim of short delivery. If We agree that less than the correct amount has been delivered to You then We shall arrange for the shortfall to be delivered to You or made available for collection by You within a reasonable period, or the difference in price credited to You. This clause does not apply where We have informed You that the Goods are being delivered in instalments.

7.3 If, by mistake, We deliver more Goods than You ordered then We will be entitled to come and collect those Goods or request that You deliver them back to Us at Our expense, or should You wish to purchase the extra Goods You shall notify Us that this is Your intention and We shall invoice You accordingly.

8 Price and payment

8.1 You shall pay Us the Price for the Goods.

8.2 We shall be entitled to invoice You for all amounts due under the Order on placing the Order and for Goods ordered at Our Website or by telephone through Our catalogue payment shall be taken at the time the Order is placed. Time of payment shall be of the essence.

8.3 If the Delivery Address is in Mainland UK, We shall bear the cost of delivery provided the value of the Order is equal to or more than the Minimum Delivery Spend.

8.4 Unless You have satisfied the Minimum Delivery Spend and/or if the Delivery Address is outside of Mainland UK, We shall be entitled to charge You for Our reasonable costs in transport, packaging and insurance (including any value added tax thereon). Transport and packaging will be charged at the current rate in force.

8.5 Except where We have informed You otherwise, the Price is exclusive of any applicable value added tax, which You must pay Us in addition to the Price (if applicable).

8.6 You must make all payments due under the Order in full in pounds sterling (£) without any deduction (whether by way of set-off, counterclaim, discount, abatement or otherwise) unless You have a valid court order which requires Us to pay an amount equal to such deduction to You, or unless We have otherwise agreed to it in advance in writing.

8.7 We reserve the right, by giving notice to You at any time before the Goods are delivered, to increase the Price to take account of any increase in the cost to Us of supplying You the Goods which is due to:

8.7.1 any factor beyond Our control (which may include, but is not limited to Force Majeure Events, changes in Our supply costs, exchange rate fluctuations and charges in import duties or levies);

8.7.2 any change in delivery dates or quantities for the Goods which You request;

8.7.3 any delay caused by Your instructions or failure by You to give Us adequate information or instructions; or

8.7.4 any royalties due to the plant breeder pursuant to the Plant Varieties and Seeds Act 1964.

- 8.8 If, on notification of the increase in Price, You decide not to proceed with the Order then You are entitled to cancel the Order within two (2) Working Days of such notification and will be given a full refund of the Price, if it has already been paid.
- 8.9 If We do not receive full payment of the invoice by the due date then (in addition to any other rights that We may have) We shall be entitled:
- 8.9.1 to cancel the Order; and/or
- 8.9.2 to sue for the entire Price; and/or
- 8.9.3 to charge interest (both before and after any judgment) at a rate of 2% per month on the outstanding balance; and/or
- 8.9.4 to demand that You immediately return to Us all Goods that We agreed to sell to You in which the property has not passed to You in accordance with the provisions of clause 11 below and You agree to reimburse to Us Our costs or expenses in recovering such Goods.
- 8.10 All payments payable to Us under the Contract shall become due immediately on its termination despite any other provision.
- 9 Warranties**
- 9.1 All warranties, conditions and other terms implied by statute or common law (save for the conditions implied by section 12 of the Sale of Goods Act 1979) are, to the fullest extent permitted by law, excluded from the Contract. We do not warrant that the Goods will be reasonably satisfactory or fit for purpose. It is Your responsibility to ensure that the Goods fulfil Your requirements.
- 9.2 Subject to clause 9.4, We warrant that:
- 9.2.1 We are legally entitled to sell the Goods to You; and
- 9.2.2 the Goods will comply with the Regulations.
- 9.3 Your only remedy in the event that the Goods do not conform with the Order is to request replacement of the Goods.
- 9.4 You accept and acknowledge and We do not make any warranties in respect of the following:
- 9.4.1 that the Goods will be free from any diseases undetected at the time of delivery, regardless of how they are transmitted; and
- 9.4.2 that we will be responsible in any way for the performance of any crop grown from the Goods.
- 10 Liability**
- 10.1 We shall not be liable where You have:

- 10.3 Except pursuant to clause 10.2 above, We will not be liable for:
- 10.3.1 any loss of profits;
- 10.3.2 loss or depletion of goodwill;
- 10.3.3 loss of anticipated savings, business opportunity or data; or

- regardless of how they occur and regardless of the type of claim (for example, whether in contract, strict liability, tort (including but not limited to, negligence) and regardless of whether We knew or had reason to know about the claim.
- 10.4 Except under clause 10.2 Our total aggregate liability under each Contract (whether in contract, tort (including, but not limited to, negligence) or strict liability or otherwise howsoever arising) shall not exceed the total amount payable to Us by You under the Contract.
- 10.5 We will not be liable for
- Any import duty, import tariffs or additional charges incurred by customs once goods have been dispatched from our premises where the correct paperwork etc. was not requested before dispatch by the customer.
- 10.5.1 The customer is responsible and they understand and implement the necessary procedures and paperwork in their particular country. We will not knowingly send goods without the necessary import paperwork, but for any reason goods are sent without the necessary import paperwork requested by the customer then the liability (and cost) for non-delivery is the responsibility of the customer.
- 11 Ownership and risk**
- 11.1 You will become the owner of the Goods only when We have received full payment of the Price and the Goods have been delivered to You at the Delivery Address.
- 11.2 The risk of loss of or damage to the Goods will pass to You upon delivery and You should insure the Goods from that time.
- 11.3 Until ownership of the Goods has passed to You, You agree:
- 11.3.1 to hold the Goods on Our behalf;
- 11.3.2 to keep the Goods separately identifiable from all Your other goods or those of any third party so that they can be easily identified as Our property;
- 11.3.3 to allow Us (or any of Our agents or employees) to enter any premises where the Goods are being held or may be stored in order to inspect them, at any time or, where Your right to possession has terminated, to recover them;
- 11.3.4 not to destroy, deface or obscure any identifying mark, barcode or packaging on or relating to the Goods; and
- 11.3.5 to keep the Goods in a satisfactory condition and keep them properly insured on Our behalf for their full price against all risks, and if We ask You, You must show Us the policy of insurance.
- 11.4 You may only resell the Goods before ownership has passed to You if the sale happens in the ordinary course of Your business at full market value.
- 11.5 Your right to possession of the Goods shall terminate immediately if:
- 11.5.1 We are entitled to terminate this Contract under clause 13.1; or
- 11.5.2 You put any kind of financial or legal burden on the Goods or put a charge over them in any way.
- 11.6 Where We are unable to determine whether any Goods are the goods in respect of which Your right to possession has terminated, You shall be deemed to have sold all goods of the kind sold by Us to You in the order in which they were invoiced to You.
- 11.7 Regardless of how the Contract is terminated, when it does terminate Our (but not Your) rights contained in this clause 11 shall remain in full force and effect.
- 12 Laws and regulations**
- You shall comply with all laws and regulations relating to the ownership and use of the Goods including without limitation health and safety requirements, import and export control legislation and US re-export control legislation.

This clause 13 shall not prevent Us from making any other claims against You.
- 14 Events beyond Our control**
- 14.1 We will not be liable for any failure to perform Our obligations under the Contract to the extent that such failure is due to a Force Majeure Event. In such circumstances We may suspend performance of Our obligations until such time as We are able to perform them, including deferring the date of delivery or reducing the volume of the Goods ordered by You.
- 14.2 If any such suspension continues for a period in excess of three (3) months, You may cancel the Order and receive a full refund of all sums paid.

- 15 Latent Defect Or Pathogen**
- Plant diseases can be transmitted by wind, insects, animals or human agencies and may be seed or soil borne. We believe goods sold to be free from latent defect but We do not guarantee this and We will not be responsible in any way for the resultant crop. Seed is supplied at horticultural standards, We do not warrant that seeds are free from human pathogens, and growers using it in high risk food production operations such as sprouted seeds or microgreens are advised to take suitable precautions.
- 16 General**
- 16.1 You acknowledge and agree that the Contract is the entire agreement between You and Us and that, in entering into the Contract, You did not rely upon any matter that is not set out in the Contract.
- 16.2 In addition to any remedies available to Us under the Contract We shall be entitled to pursue any other rights which We may have against You.
- 16.3 If at any time We have a claim against You and We do not pursue that claim quickly, it does not mean that We cannot pursue that claim when We are ready.
- 16.4 If a court decides that a part of these Conditions is not enforceable in law that does not mean that the rest of it is not enforceable.
- 16.5 Any notice or written communication required or permitted to be served on or given to either party under the Contract shall be delivered by hand or sent by recorded delivery mail to the other party at its address set out above or to such other address which it has been previously notified to the sending party and it shall be considered to have been given on the day of delivery.
